I loved it! As a 2P game, we really enjoyed all the strategy and coordination needed to overcome the obstacles. The physics are realistic and most importantly, was SO entertaining to play around with! Also, the hitboxes were very consistent. Each level also has just the right amount of progression in difficulty so it's easy to get the hang of the game! In addition, the graphics are very cute and the music reminds me of the track from Zelda: Wind Waker.. A simple but difficult couch game that requires good teamwork. Easy to pick up but difficult to master.. I loved it! As a 2P game, we really enjoyed all the strategy and coordination needed to overcome the obstacles.
